A: After seeing the error Logfile and the inability to open the file to view it it's easy to say that there are errors in the configuration. The first thing is to stop it before it fails - stop the next thing is to take a look at the configuration file for it, it's also very easy to open it for examination with vi - vi /etc/orbiter/system.conf By default it will have a comment that says "Changed configuration file", which is the same as I had - "; Changed configuration file". If you have a problem here is what it should look like - [ENTER] [5] [B_] config = "/etc/orbiter/system.conf" Change the file, save and see if the problem is fixed. (change from [ENTER] [5] to [ENTER] [1] to restart it) The Central Bank of Ireland has warned Irish banks to avoid temptation and price their loans "at their intrinsic value" when issuing a series of fresh debt offerings as they embark on an important round of capital releases. In its Financial Stability Review published on Friday, the Central Bank said it expects to release €7bn in capital to the banking system this year to boost the stock of national bad debt to €22bn, from €18bn in 2014. The report also said the cost to national finances of the bank bailout - made up of the €10bn tranche of the former bailout funding, the €2bn recapitalisation of Allied Irish Bank, the recapitalisation of Bank of Ireland and the current funding of Irish Nationwide

Building Society - would peak at about €10.3bn in 2014. These borrowings make up the latest tranche of the bailout, which began in December 2010. In a statement, the Central Bank said it wants to ensure that more capital does not become “unwieldy”, and financial stability risks remain at a manageable level. “Temptation to price a loan on the basis of its convenience rather than its intrinsic value, at the same time
